

Players will choose one of the following clubs:

3 Iron Hybrid (20 degrees):

- Mid-size low profile club head provides high moment of inertia (MOI) for forgiveness on mishits.
- Low, deep center of gravity (COG) that makes it easy to get the ball up and out of the rough or fairway bunker.
- Wide camber sole glides through any lie, promoting solid contact.

Forged bladed 60 degree wedge:

- Deep cut precision grooves provide excellent backspin without cutting or bruising the surface of the ball.
- Smooth surface gives you more consistent control, greater spin, and dead stops on the green.
- Polished chrome finish gives an appealing look at address.
- Blade design for a traditional look and increased playability.

How it works...

- New England Hole in One will send you certificates to match your player count
- You will distribute them in the manner that you choose (example: at registration table)
- Player can choose to redeem them either by phone or the website www.neholeinone.com
- Players will pick their club, shaft and dexterity
- Players will pay a small shipping & handling fee (between \$11 & \$20)
- They will receive their club 2 to 4 weeks later
- **RECOMMENDATION:** Purchase each club online before your tournament to have while distributing the certificates and then use them for prizes within your event.
